PROFILE

I am a proficient software engineer skilled in Flutter for cross-platform mobile apps on android and iOS. I hold a Bachelor of Science in Software Engineering from COMSATS University Islamabad. I've honed my skills through projects and coursework, and I'm excited to apply my knowledge in the tech industry for innovative solutions.

EXPERIENCE

Vehicle Renting App - FYP University Software House

2022 - 2024

Developed a Flutter app with Firebase backend, using GetX for state management and role-based authentication. Additionally, I led UI/UX design for an intuitive interface, ensuring a seamless user experience.

Comsian BizzBuzz Mobile App University Software House

2023 - 2024

Implemented the Flutter framework and utilised Hive as the database solution for efficient data storage and retrieval within the application. Additionally, I integrated Firebase to enable real-time data synchronization, ensuring that users always have access to the latest information across devices.

PROJECTS

Chat App

2024

Developed a chat app in Flutter with Firebase backend, featuring authentication, Firestore, user blocking/reporting, dark/light mode, and state management using Provider.

Todo App

2024

Developed a task reminder app in Flutter with Isar database for fast local storage and Provider for state management.

EDUCATION

Bachelor of Science in Software Engineering COMSATS University Islamabad, Sahiwal.

2020 - 2024

F.Sc Pre Engineering Punjab Group of Colleges, Sahiwal

2017 - 2019

SKILLS

Dart **Language**
Flutter **Framework**
Provider & GetX **Statemanagement**

Firebase, Hive, Isar **Database**
RESTful APIs **Integration**
UI/UX **Principles**

Problem solving
Error handling
Tools: VS code, Github, Figma, Canva
